## A Collection Of Recordings

### DUPER

These are the things I learned in school if ya tie your shoes and buckle your pants ya dickey won't fall out or anything. During recess you go to play and all the kids would start to say 'hey, ya dickies hanging out.' But you won't care 'cause you're blessed down there, it makes your proud 'cause you're well endowed. 'Cause it's duper, baby. It's duper. Its duper-do. Went to Hasting's to find the perfect CD and let me tell ya believe you me I found it. Thank the Lord I got up on time to get to the store and be the first in line for The Hollies Greatest Hits for \$5.99. And that's duper, baby. It's duper. Its duper-do. And it's duper, baby. It's duper. Its rooster-do.

### BAD ASS BIG SONG

Riding the great caterpillar into the West we descend upon a village that simply don't rest. Inside the village we are greeted by an old Chinese man. He wanted to show us something he had in his hand. He said it was beautifully manufactured. But we told him he was a mean old bastard. Out of spite, horns grew from my head. By that point they knew that they were dead. 'Cause Jack and Jill went up the to fetch a pale of water, so I slapped that bitch in the face and told her not even to bother. And with the power of God and Satan in my hand I took Jacks head back to the promise land. So now this Chinese town is in rubble. Next time those motherfuckers better prepare for trouble.

### THE REASON

You're the reason why I smile and I cry. You're my relief, my only belief. You're my sun after the rain. You help ease my pain. You're the reason I wake and for every breath that I take. You're the reason why I just call to say 'hi.' I think God sent you down to remove my frown. Make me smile is what you do. Take gray skies and make them blue. You're the reason why. You're the reason why I live my life. You're the reason why I'm alive.

### ATTENTION

#### BUSY BEE

Fly busy bee, fly so free without a care, you see. You get so tired and you want to give up. Instead of just flying you could try gliding. It'd be much easier on your body. Fly busy bee, fly so free into the vast galaxy where you'll be protected from everybody. You have to realize that because of your size everything seems bigger but it really isn't. Fly busy bee, fly so free. Fly straight towards me. I'll close you in tightly and carefully. Journey out of the hive you'll make it alive just be patient, my sweet darling. Fly busy bee, fly so free. Everything's all right you see. Nothing is dangerous when I'm here with you.

### DEATH MAN

I know a guy who lives on my block. Sowed his mouth shut and can't talk. But that don't stop him from expressing the importance of good hygiene. Death Man. He ain't so bad. Death Man. He ain't so bad. The guy really knows his stuff from social studies to muff. I know it sounds pretty absurd but he taught me my first word. Death Man. He's pretty rad. Death Man. Seriously, he's pretty rad. Don't wrinkle his suit or he'll give you the boot. Then where will you work? Huh? Death Man. He's a friend of my dads. Death Man. He knows no fear.

### OPERATION OBSERVATION

Force-feed the iguanas 'cause they don't know. Prance on the apple box be sure to tiptoe. News reporters screaming at the sight of Jell-O. Hark! The angels sing like so. Little stoner boys like to play Nintendo. 'Cause a friend of a friend of a brother told me so. Bubblegum on my sneaker. Fuck!

### STATIONARY

Mouse pad firefighter got shot in the face. Bet that motherfucker got put in his place. Slippers on the floor. Yeah we got the beat! Happy B-Day, bitches. You think you're neat? Well I'll circumcise your face with my pocketknife 'cause the Roast is here to stay for the rest of your life. So you might as well get used to it, baby. And we're pumping up the jams like a late-night infomercial. You better hope you're a fan or refer to line four and once more, the Roast is here to stay.

### DREAMCITY

In the city of dreams horses have no hair. In the city of dreams hold your breath and fly through the air. In the city of dreams you show up for school butt naked. But the best kind of dream is with a girl who didn't fake it. In the city of dreams you drove your truck into the river. In the city of dreams you may come back a little sticky. In the city of dreams you run away from Tim Curry. But still the best kind of dream is with a girl that didn't fake it. But still the best kind of dream is with a girl that didn't fake it. No, no, no, no, no, no.

### THE ANT COLONY MASSACRE

#### ZOMBIE

I wake up with a headache and a craving for brains. I could settle for some Special K but maybe not today. I'm a zombie. For some reason, that Gerber Baby looks tasty. I'd like to sink my teeth in 'em. I like my infants with a side of cottage cheese. I know it sounds gross but it pleases my needs. I'm a zombie. I'm a zombie. Going through the ghetto looking for a wino. Mmm. I'm lickin' my chops. Z.O.M.B.I.E. Zombie.

### LIAR

Liar liar pants on fire. Watermelon waterbed. Before and after the gold rushing ball cap was left in the room and worn by the maids. Your shoes are too tight to bowl right so you might want to check the temperature. You should learn to swim so you can try out your new swimsuit. It's nice to get paid for damages.

### SECRETS

Can you keep a secret? I'll tell you one if you like. I shot a man three days ago and buried him in the night. Hush now, little baby, don't you dare speak the truth. It doesn't matter anyways you haven't got the proof. Here's another secret that you probably didn't know. This year there wont be another monster truck show. So now you know my secrets its time to say goodbye. Brace yourself, cause this will hurt, I'm sorry you have to die.
